Seller's Description

he Visionaire is located at the southern tip of Battery Park City, a 92-acre community with 35 acres of open park space bordering the Hudson River. Battery Park City was planned to afford its residents a resort-like life in close proximity to water and easy access to midtown stores, museums and restaurants, the works financial Center, Wall Street, city Hall and Tribeca. Many of our purchasers describe their life in Battery Park City as a gated community without the gates-there us nowhere else in NYC with this type of access to parklands and water. The train lines servicing all five NYC's boroughs are within five-minute walk and the highways on the East and West sides of Manhattan as well as the ferries traveling to and from Staten Island and New Jersey, are all conveniently accessible. The Building is sited with spectacular views of the Hudson, New York Harbor, The statue of Liberty and soon, the Freedom Towers of the New World Trade Center as well as dazzling city views of both NYC and New Jersey.
