Anyone arrested for DUI in Virginia cannot afford to ignore this book. A driver's first DUI can result in up to 12 months in jail, can lead to 12 months of mandatory suspension of the right to drive, and can cost a driver \$6,000 in fines, government fees, court costs, and increased insurance premiums.

This book explains in detail the entire Virginia DUI judicial process. But more importantly, this book empowers drivers accused of DUI so that they can find a quality DUI attorney and know how to get the most out of the attorney they hire.
