

## WHEN YOU THINK ABOUT IT ...

It's hard to get much more personal than the insurance business. People come to us every day; they share intimate details about their lives and finances; and they trust us to craft a package of protection that will serve them when push comes to shove and everything is on the line.

It's personal even with businesses. Often it's a small-business owner placing her life's dream in our hands. It's an astonishing trust, a confidence we work hard every day to prove is not misplaced.

From individuals to families to businesses large and small, we offer a rare thing in today's online, profit-driven world: personal attention and a dedication to pursue your best interests, not the quick buck.

*No, it's not a novelty or some marketing gimmick; it's tradition ...*

## A TRADITION OF SERVICE

The Hack Agency's roots in the community date back to 1918. In 1955, Eugene Hack started an insurance agency in Mount Kisco. In the following years, after the merger of several local agencies, the firm Hack-Schaefer-Ticknor Inc. emerged, with Eugene as its president and principal. When he retired in 1991, his daughter Nancy Hack formed the successor firm, The Hack Agency Inc., where she carries on the traditions of her family.

At the Hack Agency, our goal is to offer customers the broadest, highest-quality coverage at the best price we can. Moreover, it's to be there at the time of loss, to give them the support and assistance promised by the insurance contract that they purchased.
