

Mission & What We (capitalize the "w") Believe

Mission Statement

The mission of The Mattisyn School is to empower and inspire the individual child to create limitless achievements. The Mattisyn School is committed to providing exceptional, positive experiences for your child that create a foundation for life and instill a love of learning.

What We Believe

We believe in our children, first and foremost. We believe there are no limits to what a child can achieve. We also believe that traditional teaching methods do not work with every child. Young children must be engaged and an active participant in their learning, allowing them to make decisions, examine possibilities and question the world around them. At The Mattisyn School we know that children thrive in an environment that encourages acceptance and respect of each other and values a spirit of community.

Our unique program creates positive, meaningful learning experiences during the early childhood years, empowering the children to gain self-confidence, self-esteem, self-awareness and the development of a love for learning. By building these traits at an early age, the child can achieve endlessly.

Nursery

Caring for infants is a tremendous responsibility and we take that responsibility very seriously. The needs of the infant are consistently and constantly being met throughout the day. In the nursery we focus on the nurturance of the active learner, providing stimulation to spark the innate curiosity of

the infants. During this stage of development infants begin a rapid process of development, fostered by trust building. At The Mattisyn School our nurturing caregivers interact in daily physical activities dedicated to promote safe exploration, and movement skills. Trust is critical at this stage. The infant is reassured continuously that their physical, emotional and social needs are met and they are safe, nurtured and cared for at The Mattisyn School. A card access only playground and facility with constant camera monitoring and secure Parents can loving, infant were chosen warmth and

provides a safe environment. rely on our devoted staff of caregivers who for their compassionate personalities.

We provide nurturing and most importantly lots of love and caring.

Toddlers

This meaningful time between infancy and childhood is very important in a young child's life. During this stage, we will foster and promote literacy, problem solving and socialization skills, among a host of other accomplishments. Our unique program and curriculum will build self-esteem and self-confidence that will last a lifetime. Our nurturing teachers guide the children, thereby encouraging and supporting each child's emerging self.

Preschool and Prekindergarten

This important year prepares the children for formal schooling. All necessary and needed concepts for school readiness are a focus. Early reader skills of phonological awareness and an understanding of patterning and number sequence provide the foundation for future school success.

Students learn to recognize lower and uppercase letters, write the alphabet, identify sounds, and exposed to solid reading skills. They are exposed to the earliest forms of mathematical concepts.

The classroom teachers all work together closely to ensure that the curriculum is well-integrated and age appropriate. We are a language rich learning environment creating a solid foundation and meaningful experiences.

The advanced curriculum is enhanced by instruction in art, music, science, Spanish, sign language for infants, computers, interactive boards and specially designed indoor/outdoor physical development playgrounds to support socialization, dramatic play, fine and gross motor skills and more.

At The Mattisyn School we have one goal in mind: to create the foundation for avid readers and writers at earliest stages.

ABOUT US

The Mattisyn School, "*Where Education Begins*," is a community that promotes early childhood development and instills a love of learning, making The Mattisyn School the perfect place to start your child's academic life!

At The Mattisyn School we understand it is critical to maximize optimal development into the child's early learning years by introducing the appropriate stimulation, sensory-motor experiences, activities, and skills that will promote each individual child's learning abilities at his or her own

rate. Further, we support that each child is a unique learner with different learning styles: auditory, visual or kinesthetic and by teaching according to the way the child learns empowers and builds self-confidence from within.

To that end, it is important to seize the opportunity to provide your child with the best developmental education during the vital years or window of opportunity for learning years, and The Mattisyn School incorporates these principles into our unique program and optimizes the development of each, individual child, in a rich, safe, nurturing environment. By providing a carefully balanced program we empower the child to be his or her very best while building self-esteem and self-confidence from within. It is the early experiences of the young child that mold and shape the child's entire life and The Mattisyn School is passionate about promoting loving, positive development and growth. Our program impresses on each child that learning and achievements have no limits !
