**H**ello again and thank you for allowing me to be your insurance agent. As always you may call me for any questions you may have about your insurance plans and bypass the toll free numbers where you get a recording.

**A**s we come out of the open enrollment period for Medicare plans, I wanted to be sure that you are aware of other plans I can offer you regarding your health, wealth and final expenses. Or perhaps your friends or family members can be helped with these plans. I really appreciate you referring me to those close friends or family.

**If you know someone going on Medicare (aging in-65; receiving disability; losing employer insurance), please give them my phone number so I may assist them also. Now would be a good time for a home visit to review your insurance needs. Being a broker allows me to search multi companies for the right plan for you. Why not call me today for an appointment.**

**Sincerely, Charles**

**My company,  
Legacy Makers Inc.,  
offers these services:**
