

MISSION STATEMENT

At Sphinx Home Health Care, we believe that working together with patients, families and physicians can improve patients health, healing and independence.

We strive to provide the highest quality of care through the integration of the latest technology and the integrity and compassion of our staff.

We are guided by our philosophy which involves providing personalized quality care while maintaining the dignity and self respect of our patients.

OUR SERVICES

SKILLED NURSING

Comprehensive nursing assessment, care, support and education for the patients and families.

PHYSICAL THERAPY

Assistance with regaining mobility and independence through improving muscle strength, range of motion, balance and coordination.

OCCUPATIONAL THERAPY

Assistance with restoring skills for activities of daily livings such as bathing, dressing, cooking and eating.

SPEECH THERAPY

Assistance with language disorders, swallow problems, memory and cognition retraining.

SOCIAL SERVICES

Provide information, help arrange for services from community organizations, assist with living arrangements, crisis management and guidance with financial problems.

NUTRITIONAL SERVICES

Offering nutritional counseling and individualized dietary plans for patients with special dietary needs.

HOME HEALTH AIDS

Assist with personal hygiene such as bathing, dressing, grooming and light meal preparation.
