

Concept 1

These shapes overlap with the earth symbol and with each other at 50%, as if to capture the hemispherical outline of the leftward movement of the earth

Concept 2

The lower part of the upper "C" overlaps with the upper part of the lower "C", like the Olympic rings; the spherical overlapping space should be an earth symbol (preferred), or simply silver or gold color

Concept 3

The "o" in the center of "Clairvoyance" could radiate something outwardly, or a type of reverse vortex could somehow project from it.
