

1 Tech Stars Competition

National competition targeting all students to innovate with XXXXXXXXX technologies and develop applications, propose creative ideas or create web pages. This competition will target:

- Higher education universities.
- Public and private schools.

The competition objectives are:

- a. Educate students on development tools and help trigger creativity and innovation.
- b. Provide less competitive competition platform to build competitiveness spirits.
- c. Engage IT and NON-IT students.

1.1 Competition Categories

- Apps Star
- Idea Star
- Web Star

1.2 App Star

Develop application using XXXXXXXX technologies

1.3 Idea Star

Propose an idea for technical, functional or business feature

1.4 Web Star

Build website with accurate genuine content to create awareness among the public about social problems or new ideas for improvements. This category does NOT require any technical experience as it targets non-IT students.
