*Fairmont Supply Oil and Gas, LLC.*

### About Fairmont Supply Company

Headquartered in Canonsburg, PA. Fairmont Supply Company has been serving the Industrial and Mining industries since 1921. With over 1000 major suppliers representing over 250,000 SKU's Fairmont Supply is a leader in providing MRO supplies to its customers.

Fairmont Supply is now committed to expanding its standard of excellence in the distribution industry to the Oil and Gas market with service centers located throughout the Appalachian Basin.

On multiple well hook-ups or other on-site storage requirements, a job-site trailer assures supplies are always readily available. We will obtain a list of your desired items and create a unique inventory list tailored specifically to your needs.

Use them to stock consumables and everyday use items to eliminate repeated trips to the supply store. These "mobile warehouses" keep all the essentials close at hand so you have them where you need them, when you need them, out in the field.

*Products "where you need them,  
when you need them"*

Trailers are available in a number of lengths and overall capacities. Custom-built racking can be supplied to organize and provide easy access to all inventoried items.

### Benefits:

- **Parts are available 24/7**
- **Safe and convenient-under lock and key**
- **Central storage in a protected environment**
- **Easily restocked at any time**
- **Portability-goes where you go**
- **Minimizes stock-outs and lost items**

*In the oilfield, just having the product is not enough. Our customers demand timely and reliable deliveries, and they want a single-source supplier for one stop shopping. We carry the broadest line of complementary products in the industry, and if we don't have it, we'll find it!*

#### **Safety Equipment**

- FR Clothing
- Gloves and Footwear

- Abrasives and Adhesives
- Welding Equipment
- Janitorial Supplies

*"We are committed to being the best and to establishing new standards of excellence in the distribution industry. Our goal is to do the job right the first time, within a safe work environment, and in a manner consistent with the requirements of the customer. We take customer satisfaction personally and are committed to being a leader in providing our customers with quality products and cost-effective services. We believe it is our responsibility to bring added value to both our customers and our suppliers by introducing innovative and cost-effective ideas while providing reliable performance."*

To support the exploding natural gas Appalachian plays, Fairmont Supply Company purchased North Penn Piping and Supply (Warren, PA) in 2008, the oldest continuously operating oilfield supply store in the United States with an additional store opened in 2009 in Troy, PA to serve Northeast Pennsylvania.

The Fairmont Supply Company Oil and Gas Division was launched in July of 2010 in Washington, PA to serve Southwest Pennsylvania, and additional stores will be opened in 2011 in Indiana, PA and Jane Lew, WV to address the expanding gas operations in the central Appalachian basin and WV operations.

Our products and services are focused on serving the specific needs of our oilfield clients and we continually strive to be a one-stop source for our valued customers.

As an integral Fairmont Supply store, Fairmont Supply Oil and Gas has access to a huge inventory of over 2 million items stocked in 26 stores across the United States. Our oilfield stores stock not only common oil and gas items but also a wide range of Maintenance, Repair and Operating (MRO) items as well. We represent many of the finest vendors in the country, with a breadth of products unrivaled by many of our competitors. New product lines and suppliers are added on a continuous basis to keep pace with the ever-expanding technologies and upgraded products needed in the oilfield.

#### RIG EQUIPMENT
