

# Beautiful buns ...

...and lovely looking loaves; red hot, hot cross buns; classy crumpets; dazzling doughnuts and ravishing rolls ...

## Perfect Products ... sell better ... and cost less!

Do you dream of a round doughnut every time?  
The perfect colour, size and weight ... with just the right amount of sugar.  
What if you could do the same with **ALL** your baked products ...

## Perfect Products every time?

Only **AccuBake** can make this possible ... simply and easily.

### What you need ...

- The unique **AccuBake** system.
- A sturdy table (that doesn't wobble!) and a 13 amp socket ... it's really that simple!

**And ... a desire to take the quality and consistency of your finished baked products to a whole new level**

### What you get ...

- Leading edge, intelligent machine-vision technology.
- Time saving, easy to use, non-subjective, instantly recorded quality testing.
- Measurable quality improvement over your competitors.
- Reduced product wastage leading to immediate profitability improvement.
- Improved consistency of baked product finishes, colour and topping.
- Ability to create a true "quality focal point" in your bakery.
- Increased and controlled productivity acceptance rates.

**From 350,000 to 15 million  
Hot Cross Buns in just one year!**

**AccuBake** gives Australian bakery's key customers the confidence to increase order volumes by 40 times in just 12 months!
