Hydraulic Pumps and Motors.

Multiple test stands, including a 400HP diesel system, allow us to repair and test even the largest pumps and motors. We are an authorized service center for Oilgear, Kawasaki / Staffa, Linde and more.

Large and Small Bore Cylinders.

A dedicated cylinder repair station and overhead crane service and test cylinders up to 16 inches in bore and 240 inches of stroke. We service all makes, models and styles.

Proportional-Servo Valves.

An isolated servo valve test stand and specialized software allows us to service, test and calibrate your valve to your custom profile and specifications.

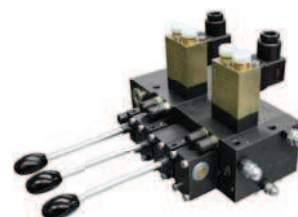

Hydraulic Repair Services

...Friendly, Professional Service from an Engineering Company.

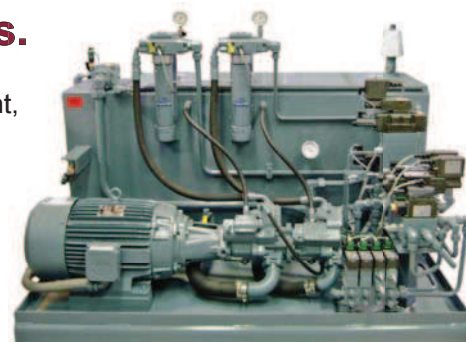

Mobile Proportional Control Valves.

Over twenty years of Hawe and Parker-Apitech mobile valve assembly experience has made our service department an authority on assembling, servicing and testing mobile "stack" control valves.

Hydraulic Power Units and Motion Controls.

With over 25 years of custom hydraulic system manufacturing and motion controls experience and a dedicated engineering department, we can refurbish your existing power unit, manifold assembly and motion controls to "new" condition and install it for you.

**Directional, Flow and Pressure Control Valves •
DIN Cavity Valves • Accumulators • Gear Boxes
• PTO Drives • Hydraulic Winches and more...**
