

HIGHLIGHTS:

Quiet and typical highland surroundings: modern and secure dependencies with a familiar and cozy environment.

Specialized environment for rehabilitation and prevention of diseases and problems that most affect seniors.

Knowledge, care and affection in everything we do. These are the most distinguishing features of SerraVille

Our Phylosophy

SerraVille Geriatric Residential & SPA is a new concept of care for the elderly, which provides hosting assistance, medical treatment and rehabilitation. We are health care professionals committed to improving the quality of life for our guests, patients and their families.

Mission and Values

A long time we had been dreaming with a safe and pleasant environment, with complete infrastructure to serve our patients.

This motivation gained strength when we realized there was no adequate place for our own elderly relatives!

The quality we were looking for was not offered by any institution or geriatric company. Some even possessed modern facilities, but suffered with lack of knowledge and poor service delivery.

We choose and invested a lot in our professions and specializations, the SerraVille Geriatric Residential & SPA is the solution we needed for a complete and differentiated service.
