

Professional Commercial Construction

Since 1992, Wack General Contractor has earned a reputation for uncompromising quality and service, on-time completion, and open, competitive pricing. With each new project, we build on that foundation.

Our services are customized to meet the unique needs of our clients with a focus on helping them achieve their requirements, reduce costs, and improve quality.

We have experience in a wide variety of projects including: multi-story office buildings, medical facilities, retail, industrial, pre-engineered buildings, tenant fitups, and other specialty projects.

We pride ourselves on the personal, professional service we provide to our clients.

Our Project Approach:

- Teamwork and cooperation dedicated to meeting our clients' requirements
- Commitment to delivering quality - on time and on budget
- Hard work, dedication, and understanding our clients' goals

Wack
GENERAL CONTRACTOR

"Due to your attention to detail, dedication, and relentless perseverance, we transitioned into our office with little to no work interference."

J.L. Nelson, Marine Corps

Wack General Contractor provides quality commercial construction services to businesses, institutions, governments, and individuals throughout the Fredericksburg, Virginia area.

Whether you are building a new facility, remodeling, or expanding, we can assist you every step of the way, always with your best interest in mind.

Pre-Construction Services

Comprehensive pre-construction planning — from project feasibility, site evaluation, and building renderings to conceptual budgeting and value engineering.

Design Build Construction

With both design and construction in our hands, we are the single source of accountability for successful project completion — so you can focus on your core business.

General Contracting

Experienced project managers and superintendents work closely with the owner, architect, engineers, local government, and subcontractors to see every job through from start to finish.

Development Services

Planning a project? Developing land? Need to locate a site? From concept to opening day, we can manage your project in its entirety.

To learn more about how we can help you with your next project, visit our web site at www.wackgc.com or speak directly with our Project Development Team by calling 540.372.4565.
