

## **Interpro Forest Products Dubai**

Middle Eastern Regional Headquarters

Exporters and Distributors of Lumber, Sawnwood, and Panel Products

Techno Park, Dubai, United Arab Emirates

With an already extensive presence in the Middle East, Interpro further strengthened its marketing capabilities in this region by establishing Interpro Forest Products Dubai, which is the Middle Eastern regional headquarters of the organization. Along with providing customer support and handling all inquiries and orders originating in the Middle East and the Asian subcontinent, the main function of this office is to market lumber, sawn wood, and panel products exclusively into Saudi Arabia, U.A.E., Qatar, Bahrain, Oman, Kuwait, Egypt, Pakistan, and India.

Situated at a strategic crossroads of Europe, the Middle East, Asia, and Africa, Dubai is at the forefront of economic development in an increasingly vital region of the world. Monitoring the opportunities which lie in this economic hub has played a strategic role in the company's development and our expertise in the Middle Eastern forest products industry has undoubtedly created opportunities for our customers.

For manufacturers and suppliers, the advantage to partner with us is simple: our first-hand exposure to large-scale projects has bestowed several opportunities for companies to choose Interpro Forest Products Dubai as their exclusive distributor to serve these projects and benefit from market opportunities. We have created sustainable demand for our customer's products through our strategic marketing capabilities. For end-users, our access to direct lines of supply from Interpro's global supplier network allows Interpro Forest Products Dubai to carry a broad range of products which ultimately produces an unmatched competitive edge over our competition.

Irrespective of order and customer size, Interpro Forest Products Dubai will always provide excellent customer support that is driven by the company's eagerness to cultivate shared interests and foster long term relationships.
