

Interpro Wood Industries LLC

Manufacturing Subsidiary

Producers of Finished and Semi-Finished Wooden Products

Jafza, Dubai, United Arab Emirates

Interpro Wood Industries LLC (IWI) is a Dubai-based manufacturing subsidiary of the Interpro organization. The motivations to build the factory were to meet the economic developments in the United Arab Emirates in the early 2000's and to become integrated across the supply chain. After sustainably developing our manufacturing capabilities and gaining a reputation of being a dependable supplier of high quality wooden products, IWI is now the leading producer of custom wooden products in Dubai. The philosophy of our manufacturing subsidiary is guided by a common thread: to dedicate and to commit to the safety of our employees and the environment and to offer fair priced products of the highest possible quality.

IWI manufactures both finished and semi-finished wooden products to serve a diverse range of clients and end users. We have four distinctive product lines:

1. Wooden packaging products such as crates, boxes, domestic and export pallets, mats, skids, frames, etc...
2. Value-added wooden products that require heat treatments, grooving, edging, surfacing, or slicing.
3. Furniture components.
4. Customized packaging solutions to serve the needs of exporting, packaging, handling, and storing of industrial and consumer goods.
