Press Proof Waiver Statement: I choose to waive the option of a printed press proof of my label design. I understand that Labeltronix will produce the label "as is" from the artwork provided and the quoted specifications, and that by signing this PDF proof, ***Labeltronix will not be liable for color or print resolution quality*** (A printed press proof would ensure accuracy in the elements of production such as color, copy, line screen, resolution quality and is available for $75 per order). ***I also understand that a PDF file is only a representation of the color, so the finished product may look different from the PDF proof I've received.*** I agree to pay, in full, for my job as quoted and according to the specifications laid out in the PDF proof.

PRINT TO DIE TOLERANCE IS +/- 1/64"
