

Wait and Load

At Orion waste, we operate a "Wait and Load" waste clearance service for private and business customers throughout Greater London. And unlike Skip Hire, with a Wait and Load service you only pay for the waste you throw, saving on average £100 against the cost of an 8 yard skip!

It is also the ideal solution for areas where a skip cannot be used.

Our Wait and Load service will free up your time and make your collection or clearance easy. We simply turn up at the time you choose and load your waste.

Many shop-fitters, property developers and builders call us daily to busy city centre locations where they find difficulty disposing of their waste.

Give us a call on **020 7987 2220** if you want to try us out.

Bag Collection

We offer an easy and competitive recycling waste management service tailored to businesses in the Central London area.

We provide Pay-as-you-go bags, the ideal solution for customers that do not have space for containers.

Our service is on average 40% cheaper than local councils and we collect at a time to suit you. We provide up to five collections per day, seven days per week.

Mixed Waste Bags – 8Kg

Our mixed waste bags are strong, durable and are used for non-recyclable material including food waste and where waste material cannot be segregated.

Mixed Recycling Bags – 10Kg

With today's technology there is no need to sort your mixed recycling into more than one bag or bin.

Simply place all dry recyclable waste into Orion's easy recycling bags to achieve a recycle rate close to 100%.

Recyclable wastes includes paper of all types and colours, newspaper, magazines, catalogues, envelopes, junk mail, wrapping paper, greeting cards, old brochures, leaflets, hand paper towels, plastics and packaging, cardboard, tins and food tins.

Glass Recycling Bags – 10Kg

Our glass recycling bags can take all types and colours of glass, bottles and jars. We currently achieve a recycling rate close to 100%.

Cardboard Stickers – 10Kg

We recycle 100% of cardboard collected. Simply flat pack or box up your cardboard and add one of our stickers and we will collect and recycle it.

If you are unsure what type of bin would best suit your situation, call our customer services on **020 7987 2220** and we will be pleased to give you the best impartial advice.

Grab Hire

Grabs are ideal for clearing away fly tips and for account customers we offer a 24hr call out service.

A grab lorry can provide a cost effective collection service when waste is located in a number of places. This service can prove a much more economical and flexible alternative to ordering multiple skips.

There's no need for you to do any loading. We will simply turn up at the appointment time, load your waste material for you into our lorry and take it away. This service is especially useful where access is restricted or there are no loading facilities.

Give us a call on **020 7987 2220** if you want to try us out.

Wheeled Bin Collection

At Orion, we offer durable and easy to load wheeled bins and collection on a scheduled or on demand basis.

Wheeled bins allow you to move waste around and are perfect where space is a problem.

We provide wheeled bins for a whole range of businesses including: construction, office fit out, hotels, department stores, restaurants and shops. Wheeled bins are available on a rental basis or can also be purchased.

We offer various wheeled bin sizes to suit your business needs. All our wheeled bins have lightweight lockable wheels and can be used for mixed waste, recycling, or to collect or segregate waste streams.

The cost to empty recycling bins is much lower than general waste so the more material you can recycle the more money you can potentially save.

If you are unsure what type of collection service you need, please call one of our customer service advisors on **020 7987 2220** or alternatively we can carry out a free on-site survey.

Wheelie Bin Sizes	Suitable Waste	Weight Limit Kg	Volume Ltrs	Height	Depth	Width
240 Litre	Commercial / light construction	20	240	1070mm	740mm	585mm
360 Litre	Commercial / light construction	30	360	1110mm	865mm	620mm
660 Litre	Commercial / light construction	60	660	1200mm	770mm	1360mm
1100 Litre	Commercial / light construction	100	1100	1300mm	1070mm	1360mm

Roll On Roll Off Containers

For large scale building projects or high volume waste producers our roll on roll off containers are the ideal solution. We offer a large range of container sizes to suit different premises and varying waste volumes.

Open top containers are suitable for mixed wastes and source segregated materials for recycling.

18 Cubic Yards – are ideal for bulky and light waste and take up only the footprint of a single parking space. Ideal for factories and department stores, or for light waste segregation such as paper, cardboard and plastics.

20 Cubic Yards – are low-sided and ideal for heavier inert type wastes such as mixed construction, soil, rubble and hardcore. The majority of councils will not allow these containers to be placed on public highways.

20 Cubic Yards – are high sided and suitable for lighter bulky materials.

40 Cubic Yards – are suitable for light builders waste and bulky wastes from strip outs and clearances. These bins are also used by large industrial producers to segregate their waste.

50 Cubic Yards – are for bulky scrap metal collections only.

If you are unsure what size container you will need, please call our customer services on 020 7987 2220 and we will be pleased to give you the best impartial advice.

Skip Hire

Orion skips are available in a range of sizes and are competitively priced. Our skips can be used on a Wait and Load basis, hired on a contract or one-off basis.

We supply skips to the public, construction companies, industrial businesses and individuals. We also supply permits depending on local authority guidelines.

Orion skips are ideal for bulk recycling of segregated waste from building, refurbishment and demolition sites. Where possible, the waste is taken to a materials recycling facility (MRF) for processing. The size of the containers means haulage journeys are kept to a minimum, cutting costs and benefiting the environment.

If you are unsure what size skip you will need, please call our customer services on 020 7987 2220 and we will be pleased to give you the best impartial advice.

Skip Sizes	Suitable Waste	Weight Limit	Volume Yds	Volume Mtrs	Height	Length	Width
4 yard	Heavy inert/soil	4 tonne	4	3.05	0.97m	1.83m	1.29m
6 yard	Heavy inert/soil	8 tonne	6	4.58	1.22m	2.6m	1.52m
8 yard	Mixed construction	8 tonne	8	6.11	1.22m	3.66m	1.68m
10 yard	Mixed construction	7 tonne	10	7.64	1.3	3.8m	1.68m
12 yard	Mixed construction	7 tonne	12	9.17	1.38m	4.1m	1.67m
14 yard	Light bulky waste	7 tonne	14	10.7	1.55m	4.1m	1.79m

Construction Waste Management

At Orion, we specialise in construction and demolition waste and resource management. We manage your waste products ensuring your environmental impact, along with your costs, are kept to a minimum.

We can supply skips or roll on roll off containers from 4 to 50 cu yd to separate your waste and resource streams.

We provide waste removal for a whole range of construction waste including: wood, plasterboard, mixed construction, cardboard and paper, mixed metal and inert waste.

Collection of segregated waste not only increases recycle rates but can be much more cost efficient.

Our price list includes labour and all disposal fees. We aim to totally facilitate your needs and guarantee all waste is disposed of properly and where possible recycled or reused.

If you do not have the space for containers, we can carry out caged truck collections, for both single waste streams and mixed waste. Collections can be as small as 4 cu yds per visit.

For factories, retail outlets, distribution centres and other large producers of waste, we can supply compactors, balers or roll on roll off bins in which you can place mixed or segregated materials.

We also supply 660 or 360 litre wheeled bins which we can collect in one of our mobile compactors.

If you are unsure what type of collection service you need, please call one of our customer service advisors on 020 7987 2220 or alternatively we can carry out a free on-site survey.
