Mobile Keyword Marketing

Unlike traditional email subscriptions, mobile keyword subscriptions are controlled by the end users. People can subscribe and unsubscribe on an opt-in basis. This level of control and the new emerging mobile culture have brought keyword marketing to impact levels far exceeding direct mail, email marketing, and other traditional marketing channels, resulting in as much as 90% + read rate and 25%+ response rate.

Fortune 500s Utilize Mobile Marketing Because it Works

You see Mobile Keywords all over TV, radio, magazines, and Fortune 500 websites. People text your Keyword to 69302 to join your mobile list. You can then send direct response campaigns

90% of text messages get opened, and most get responded to within five minutes!
