

WallArt

Wall Decor

WallArt is a European company with our factory located in China. The WallArt brand has expanded to 11 different countries in a short period of time. We supply a high quality product at a great low price. Our innovative 3D wall panels bring your walls to life!

Elegance and Style come with all our 12 unique designs. Best of all we care about our environment, so we made them 100% Eco-friendly.

WallArt is currently looking for sales agents, wholesalers and retailers to promote and carry our product line through out North America.

Contact **WallDecor3D.com** to discuss opportunities available for your business with our WallArt Brand.

WallDecor3D.com

WallArt introduced their 3D wall panels in Europe in 2010. We were the first to enter the market with our Eco-friendly home decor interior product. At this moment there are 12 different designs of the WallArt 3D wall panels available: Gaps, Bricks, Waves, Ellipses, Vaults, Sweeps, Cubes, Pitches, Squares, Splashes, Craters and Kites. The WallArt 3D wall panels give an extra dimension to your walls and compliment just about any room in the house. WallArt panels are perfect for Commercial use also, Hotels, Office lobbies, Retail outlets, Restaurants and more. Even apply them on ceilings. They make for beautiful and extravagant looking accent walls. WallArt 3D wall panels will bring your walls to life!

WallArt brings your walls to life with its modern and contemporary designs. The panels are made from natural plant fibres from the crushed sugarcane stalks remaining after the raw sugar is extracted from the sugarcane . The shredded raw material is called bagasse. This forms the base of this easily installed Eco friendly product. The raw material used for our 3D wall panels is 100% recyclable, compostable and is therefore 100% biodegradable.

In 2009 in the United States it was chosen by interior designers as one of the best and most innovative eco friendly home decor product of the year. The WallArt 3D wall panels are all made of renewable resources which are biodegradable and therefore contribute to sustainability. The WallArt 3d wall panels are designed that when put together form elegant contemporary patterns. After easy installation they can be painted in any colour to suit the interior of your house or business. The result is an economical, enviromentaly friendly wall decor product which creates a stunning, rich and moddern look to any interior setting.
